

Enjoy superior processing features available only through Mercury and Microsoft RMS

FREE fully integrated software

MercuryPay is integrated with Microsoft RMS, as well as NoLoad Datacap products and a variety of dial-up terminals to provide you with fast, reliable and affordable payment processing.

Fast 2-second Internet protocol (IP) processing and reliable dial-up processing

Two-second Internet protocol (IP) transactions reduce customer waiting. Whether you choose high-speed or dial-up transactions, you'll receive many extra Mercury services for free.

All major payment types supported

Mercury supports credit (Visa, MasterCard, American Express, Discover, and JCB), debit, PIN debit, gift, check, and EBT processing.

Security

Mercury is compliant with the Payment Card Industry Data Security Standard (PCI DSS), and we are dedicated to making sure that you are, too. Mercury is an industry leader in helping merchants protect their businesses from credit card data theft. We partner with POS developers and dealers to create swipe-to-settlement security solutions for merchants.

Unique processing features

Take advantage of unique processing features, including electronic signature capture, check verification and guarantee, Dial Backup Bridge™ for Mercury, and authorization outage protection.

Stand-in authorization protection

Mercury provides back-up processing protection. Mercury's stand-in authorization platform allows you to continue processing in the event of an authorization network outage. Mercury assumes all liability by automatically backing every transaction, guaranteeing no financial loss to you.

FREE MercuryGift card processing

MercuryGift makes it easy and affordable to satisfy customer demand for gift cards. Mercury offers FREE gift card processing and a choice of programs to suit your business. (Please contact NuRol Point Of Sale to discuss details and system compatibility.)

FREE merchant portal and real-time Web reports

Through our custom merchant portal you will have immediate 24/7 access to all your transaction data with more than 30 types of real-time Web reports.

FREE 24/7 live Microsoft RMS-specific technical and customer support

Have a question or problem? Need assistance? At Mercury, you get to talk to a real person who is trained on your system. Our in-house customer support team is available to you 24/7.

No application, setup or enrollment fees

Mercury wants to be your payment processor. So we make it easy. We never charge the application, enrollment, or set-up fees that other processors charge.

Competitive rates

Mercury is affordable. Our integrated processing solution eliminates the cost of additional software. We will match your current payment processing rates, or build custom rates to fit your business. Mercury charges nothing to process your application and enrollment.
